

# 84% of data breaches are due to human error<sup>1</sup>

## SECURE YOUR HUMAN FIREWALL TODAY

### OVERVIEW

SecureTreasury offers your organization a flexible way of strengthening one of the most vital areas of your defense—your people. This subscription-based, online training course is designed to reduce the risk of corporate payment fraud by educating interdepartmental staff on common approaches to fraud, areas of organizational vulnerability, and leading practices for increased controls within a complete treasury security framework.

**PROTECT**

### HOW IT WORKS

- ▶ Training includes videos, fillable notes, and quizzes to ensure comprehension and retention.
- ▶ Courses individually tailored to each employee's department/role.
- ▶ 24/7 access to training materials with active subscription.
- ▶ Multiple subscription levels available to accommodate different group sizes.
- ▶ Courses updated regularly to reflect evolving fraud threats, leading practices, and security standards.
- ▶ Coursework may be eligible for continuing education credits toward professional credential recertification.

### KEY FEATURES/BENEFITS

- **Preemptive** – prepare for fraud attacks before they strike.
- **Efficient** – train your team at a global level for a local cost.
- **Continuous** – stay current on fraud threats and prevention tactics.
- **Flexible** – access the course content 24/7 and receive automatic updates when published.
- **Targeted** – maximize your training with role-based recommendations.

Organizations who train and test their employees on fraud report dramatically lower losses. Non-trained firms experience as much as five times (5X) the loss from fraud.<sup>2</sup>
